Video competition to help celebrate the Jubiläum (150 years of TUM)

Here it is...

The task: In a team of 2-4 students from your language course, go to the Pinakothek der Moderne and make a short film (2-5 minutes) of one of the four objects below. You are welcome to make the film with a smartphone or other small camera.

Object 1: “Schaukelstuhl MT3” (rocking chair) in the first underground floor, at the foot of the stairs.

Object 2: Automobile “Tatra 87” in the first underground floor among the motor vehicles.

Object 3: “Radio Nocturne” in the first underground floor with furniture and furnishings.

Object 4: “Futuro Haus” directly in front of the Pinakothek der Moderne.

Your film should focus on the object that you and your group have chosen. The film can be factual or fictional; you can describe the object, explain it, compare it to something similar or even tell a story based on it. If you like, you can also try to advertise the object! Very important: you must speak in the language of the course you are currently attending.

Send your film (in mp4 format) to Kathrin Bay (kathrin.bay@tum.de) and your course teacher with this flyer containing your data using LRZ Sync + Share (https://syncandshare.lrz.de; log in using your TUM identification code and password). The deadline is 1 July 2018.

By submitting your film, you will automatically be participating in a competition to celebrate the 150th anniversary of TUM. Prizes will be awarded based on the following criteria:

- Task performance: How well does the film fulfill the task?
- Understandability: Taking into consideration the language level, is the speaker understandable?
- Entertainment value: How informative, interesting, exciting or funny is the film?

The winners will receive a special surprise gift. Additionally, the winning videos will be shown as part of the TUM anniversary celebrations.
