

## Intercultural Communication Skills - Basics „Fit for Staff Mobility”

For TUM staff participating in an Erasmus exchange program.

In interactive self-awareness exercises, role plays and phases for reflection, you analyze the influences of culture on your own life as well as learn about the dimensions of other cultures.

You anticipate how “culture blues” might feel and learn techniques to master interculturally challenging situations competently and effectively, while developing functional communicative strategies.

This offer is for TUM staff with a confirmed application for an Erasmus Mobility exchange or for TUM staff who have already participated in an exchange and would like to reflect on their experiences in retrospect. Participation is independent of the target country of the exchange.

The seminar language is German
